## *COMPANY & BUSINESS MATTERS*

*A full co-ordinated advisory service in the legal, financial, tax and accounting fields*

Taking a cross-border initiative such as setting up a business on your own in Spain can be a daunting task for those who are not Spanish and do not speak Spanish. Having the right help and information can often make all the difference. **Marbella Solicitors** can steer you through the maze of Spanish Laws and regulations, give you access to the right people and help you avoid misunderstandings. Such guidance is an essential requirement for doing business in Spain.

*More than just Legal & Tax Services*

Before you start, contact us and talk to us about your ideas. We will give you free information on how to start-up in business, typical initial costs, legal considerations, and useful addresses and how we can assist putting your ideas into action.

We help clients set up market strategies and identify local partners and suppliers. We advise on legal structure, financing, management structure and employment issues.

We are committed to helping small businesses or larger investors so if you are thinking about starting a business in Spain or you are already up and running, come and talk to us.

We understand that business problems must be approached with an overall view. The growing link between law and tax makes it impossible for the expert to produce an efficient diagnosis and give advice without taking into account the implications of both areas.

We can provide a fully co-ordinated advisory service in the legal, financial, tax and accounting fields to all our commercial and business clients by delivering advice that is effective, efficient and value for money. Our aim is to provide practical advice that demonstrates an understanding of our clients' business.

We understand that the early stages of trading can be some of the hardest and that businesses do not become successful overnight. We will offer you assistance in these difficult times.
